

Mommy is a Marine

My mommy is a Marine
she's often gone away
to some far off country
where she has to stay.

I really miss my mommy
and I'm not sure what she does
except she helps other people
who need her very much.

At night when I say my prayers
I ask to keep mommy safe
so that she can come home to us
and sit in her favourite place.

Some nights I can hear daddy cry
when he thinks I'm asleep

I know he misses mommy
and his sadness hurts real deep.

I know that a day may come
when mommy won't come home
and it scares me even thinking
that we will be alone.

My mommy is a Marine
she's often gone away
And I am so very proud of her
each and every day.

Come home to us mommy
When your job is done

I know that those people needed you
But they aren't the only ones.
